

Financial Responsibility

Fees for treatment are due at the time the treatment is provided. A written estimate of treatment cost will be provided prior to provision of treatment. Payment methods include cash, check, credit card, and a no-interest payment program (CareCredit). A 5% discount is offered for all payments by cash or check payment on the same day as service. Returned checks will be assessed a \$50 fee.

For most dental insurance plans, we will file the dental insurance claims for you and will accept payment directly from your dental insurance company. However, dental insurance is a contract between you and your insurance company, and in most cases your dental insurance company will not pay for the entire cost of treatment. Fees not covered by your dental insurance may include deductibles, co-payments or certain procedures not covered by your dental insurance company. Therefore, we will estimate the benefits of your dental insurance before each treatment and may collect the estimated portion which your insurance company is not expected to pay. We are not responsible for how your dental insurance company processes its claims or for what benefits they pay on a claim. We can only assist you in estimating your portion of the cost of treatment; we at no time guarantee what your insurance will or will not do with each claim. Some dental insurance companies will not reimburse our office, but will pay dental insurance benefits to you. In this instance, we will file your dental insurance claim for you, and you will be responsible for full payment when treatment is provided.

If your dental insurance company has not provided payment within 30 days after submission of a dental insurance claim, we will notify you in writing and allow you 30 days to complete payment.

A monthly finance charge of 1.5% (minimum finance charge is \$5) may be applied to account balances which remain unpaid either 30 days after provision of treatment or after the period described for dental insurance claims above. Any account balance remaining unpaid sixty (90) days after provision of treatment may be forwarded to a collection agency and/or attorney for resolution. All costs incurred in collecting unpaid fees will be charged to your account.

I give permission to Pediatric Dentistry, P.C. to release my personal information to my insurance carrier as necessary to conduct business with my insurance carrier and I authorize assignment of benefits as allowed by my insurance carrier.

Appointment Responsibility

Please arrive at the start of your scheduled appointment time. We allow "pre-appointing" of routine checkups 6 months in advance of the appointment time if desired, and allow "multiple appointments" for siblings during the same day. However, upon the first occurrence of failure to show for an appointment, or upon the first appointment change or cancellation less than 24 hours prior to an appointment, we may not allow "pre-appointing" or "multiple appointments" for these checkups. Two or more occurrences of such failure to show for an appointment, or appointment changes or cancellations less than 24 hours prior to the appointment, may result in dismissal from the practice.

Parent/Guardian Guidelines

We welcome you to choose whether to be present with your child during treatment. If you choose to be present, we request that you assist us in accomplishing the most comfortable and productive treatment for your child by allowing us to prepare your child, supporting our terminology, being a silent observer, and being willing to be absent from treatment if necessary to enhance communication between your child and the dentist and staff.

Informed Consent for Treatment

I grant permission to the doctor and staff of Pediatric Dentistry, P.C., to provide my child's dental treatment which may include, but is not limited to radiographic, restorative, local anesthetic, nitrous oxide, oral surgical, behavior management, and protective stabilization techniques which are reasonable, necessary, and advisable for the treatment of children. The risks, benefits, and alternatives of all treatment and techniques have been discussed with me and all of my questions have been answered. If, during treatment, unforeseen conditions are revealed which necessitate an extension of the original procedure or a different procedure than planned, I authorize such procedures as are necessary and desirable in the exercise of the dentist's professional judgment. I understand that dental medicine/surgery is not an exact science and a precise outcome or perfect result is not guaranteed.

By signing below, I attest that I understand the Financial and Appointment Responsibility statements and Parent/Guardian Guidelines. By signing below, I also attest I understand the Informed Consent for Treatment and grant such informed consent.
